Care Chemicals**Characteristic values**

Specifications in the sections: 'Provisional quality control data' and 'Provisional additional product descriptive data' are not finalized and to be used for orientation purposes. A representative number of batches will be used for finalization at a later date.

INCI name: Dicaprylyl Ether (and) Decyl Glucoside (and) Glyceryl Oleate

Physical form: Transparant to slightly turbid, slightly yellowish liquid product with characteristic odor.

Provisional quality control data

(Data which is used for quality release and is certified for each batch.)

Test property	Specification
Appearance at room temperature	Corresponds to the standard
Water	50 - 55 %
Density (20 °C)	0.9800 - 0.9950 g/cm ³
Viscosity (20 °C) Brookfield LVF (Spindle 2, 20 rpm)	max. 300 mPas
pH value (20 °C)	3.8 - 4.5

Specific methods used for batch release see Certificate of Analysis. Only the data displayed in this document shall constitute the agreed contractual quality of the product. Chemical-physical characteristics reported in other product related documents (e.g. MSDS, Marketing brochures etc.) are not intended to define the quality of the product. Conversely, Product Specification does not address product communication, human and/or environmental safety or socio-economical characteristics.

Care Chemicals

Storage information

Shelf life

18 months

Storage temperature

Between + 15 °C and + 40 °C

Storage conditions

In original sealed containers and protected from moisture

Additional information

During longer storage periods below 15 °C separations might occur which, if necessary, can be eliminated by stirring and gently warming.

Intended for use as cosmetic ingredient

The aforementioned data shall constitute the agreed contractual quality of the product at the time of passing of the risk. The data are controlled at regular intervals as part of our quality assurance program.
