

Specification

PerfectionPeptide P3 Blend

0422

PerfectionPeptide P3 Blend is a powder of Peptide Hexanoyl-Arg-Ala-Nle-NH₂ Acetate salt on an Isomalt exipient.

Composition

Hexanoyl-Arg-Ala-Nle-NH ₂ Acetate salt	0.2 %
Isomalt	>94%
Water (Moist)	~5%

INCI (EU/PCPC) Declaration

Hexanoyl Dipeptide-3 Norleucine Acetate (and) Isomalt (and) Aqua/Water

Physical Properties

Consistency	powder
Appearance	white to off white
Odor	characteristic

Characteristics

Molecular weight of Peptide	456.46
moist mass	~5%
Preservation	no additional preservatives
Bacteriology	total germ count < 1000 CFU/g

Stability

3 years

Packaging

500g polyethylene can

Storage

25°C, in closed containers at a dark place
