

TECHNICAL DATA SHEET

AKOSHINE BLACK DIAMOND POWDER

DESCRIPTION

CODE: AK-CH126

Description:	AKOSHINE BLACK DIAMOND POWDER is an ultrafine powder of synthetic black diamonds. Thanks to its special optical properties, diamond is able to reflect a high percentage of light, conferring brightness and luminosity to the skin and hair.
Composition:	Synthetic Black Diamond Powder 100 %
INCI Name (CEE):	Diamond Powder
INCI Name (USA):	Diamond Powder
CAS Number:	7782-40-3
EINECS Number:	231-953-2

CHARACTERISTICS

UM

LIMIT

Appearance	-	ultra fine powder
Colour	-	grey to dark grey
Particle size	µm	5 - 12
Solubility in water	-	insoluble

STABILIZING AND AUXILIARY ADDITIVES

Preservative	None
Antioxydant	None
Other	None

CERTIFICATE LIST

CMR	free of
GMO	free of
Animal NON-testing	complies

STORAGE AND SHELF LIFE

Store the containers away from light and heat sources in dry conditions.

Shelf life: 6 years.

COSMETIC USE

Soft focus effect.

Hair care, skin care, make up.

DOSAGE: 0.01 – 0.5 %
