Product Data Sheet

Orange Flower Wax

Orange Flower essential oil is a valued ingredient for the fragrance industry.

From this oil small quantities of essential wax are obtained.

Orange Flower Wax is a soft brown wax which retains the sweet floral fragrance of the essential oil.

The composition of Orange Flower Wax is typical for natural waxes, with about 35 % natural hydrocarbons (C21-C37, esp. C23-C29), about 45 % esters (C36->C62) and about 8 % free fatty acids.

The resemblance to for example beeswax and candelilla wax gives this product similar benefits.

This flower wax can be used in creams, lotions and as an ingredient in aromatherapy products.

Applications Emulsions, decorative cosmetics, aromatherapy

Specifications:

Colour:	brown
Congealing Point:	48 - 54 °C
Acid Value:	9 - 15 mg KOH/g
Saponification Value:	71 - 91 mg KOH/g
Form:	pails

<u>INCI Name</u>	Citrus Aurantium Dulcis Flower Extract
CAS No.	8028-48-6
EINECS No.	232-433-8
