

GALOLIVE® TEN

Printed: 21-04-2021

Page 1 of 1

Revised: 21-04-2021

SPECIFICATION

Trade Name:	GALOLIVE® TEN
Chemical Identity:	<i>Ether/ester of polyglycerol with cetyl alcohol and fatty acid from olive oil with Succinic Acid</i>
Applications:	<i>PEG-free OW emulsifier, derived from Olive oil (Olea europaea). Product for cosmetic use</i>
INCI NAME:	POLYGLYCERYL-3 CETYL ETHER OLIVATE /SUCCINATE
Origin:	<i>Synthesis from raw materials of renewable origin</i>
CAS-number:	1987853-66-6
EINECS-number:	-

PRODUCT PROPERTIES

Appearance:	<i>Waxy solid, flakes</i>
Colour:	<i>Light ivory</i>
Odour:	<i>Characteristic</i>
% H2O (Karl Fischer)	<i>5,0 % max.</i>
pH, (Water disp. 5%):	<i>6,0 – 8,0</i>
Number of acidity:	<i>5,0 max. (mg KOH/g)</i>
Number of saponification:	<i>90,0 – 130,0 (mg KOH/g)</i>

SOLUBILITY

Soluble/dispersible:	<i>In hot water and ethanol</i>
