

## Product specification

**Dehyton® MC**

PRD 30530373

Valid since	30.04.2019
Revision	2.5
WF-No.	19945
Page	1 of 2

® = registered trademark of BASF in many countries    ™ = Trademark of BASF

**Care Chemicals****Characteristic values**

The specifications stated in the paragraphs 'Quality control data' and 'Additional product descriptive data' finally and conclusively describe the properties of the product.

<b>INCI name:</b>	Sodium Cocoamphoacetate
<b>Physical form:</b>	Clear low viscous yellowish liquid with a slight inherent odor

**Quality control data**

(Data which is used for quality release and is certified for each batch.)

<b>Test property</b>	<b>Specification</b>
Appearance at room temperature	Clear yellowish liquid (turbidities may occur at < + 15 °C, to recover see additional information)
Odor at room temperature	Corresponds to the standard
Sodium chloride	6.50 - 7.50 %
Dry residue	38.0 - 41.0 %
pH value (20 %)	8.50 - 9.50

Specific methods used for batch release see Certificate of Analysis. Only the data displayed in this document shall constitute the agreed contractual quality of the product. Chemical-physical characteristics reported in other product related documents (e.g. MSDS, Marketing brochures etc.) are not intended to define the quality of the product. Conversely, Product Specification does not address product communication, human and/or environmental safety or socio-economical characteristics.

**Additional product descriptive data**

(Data which is proven statistically but not determined regularly.)

<b>Test property</b>	<b>Specification</b>
Color number Gardner	max. 3.0

Specific methods used for batch release see Certificate of Analysis.

## Storage information

### Shelf life

12 months

### Storage temperature

Between + 15 °C and + 30 °C

### Storage conditions

In original sealed containers and protected from moisture

### Additional information

The storage of the product at temperatures below + 15 °C can cause turbidity, which is reversible by heating the product at room temperature while simultaneous stirring.

## Intended for use as cosmetic and home care ingredient

The aforementioned data shall constitute the agreed contractual quality of the product at the time of passing of the risk. The data are controlled at regular intervals as part of our quality assurance program.
