Care Chemicals**Characteristic values**

The specifications stated in the paragraphs 'Quality control data' and 'Additional product descriptive data' finally and conclusively describe the properties of the product.

INCI name: Coco-Caprylate**Physical form:** Clear, colorless to slightly yellowish, medium polar oil**Quality control data**

(Data which is used for quality release and is certified for each batch.)

Test property	Specification
Acid value	0.00 - 0.50 mg KOH/g
Saponification value	190 - 220 mg KOH/g
Density (20 °C)	0.856 - 0.862 g/cm ³
Refractive index (20 °C)	1.4350 - 1.4390

Specific methods used for batch release see Certificate of Analysis. Only the data displayed in this document shall constitute the agreed contractual quality of the product. Chemical-physical characteristics reported in other product related documents (e.g. MSDS, Marketing brochures etc.) are not intended to define the quality of the product. Conversely, Product Specification does not address product communication, human and/or environmental safety or socio-economical characteristics.

Care Chemicals

Storage information

Shelf life

18 months

Storage temperature

< + 30 °C

Storage conditions

In original sealed containers and protected from moisture

Additional information

Once the lid has been opened the complete contents of the packaging must be processed; the packaging is unsuitable for further storage of remaining residual quantities of material. As the inside surface of the packaging is uncoated steel and due to moisture from the surrounding air, opened packaging is susceptible to rust from the inside.

Cetiol® C 5 is stabilized against oxidation with natural mixed tocopherols.

Intended for use as cosmetic ingredient

The aforementioned data shall constitute the agreed contractual quality of the product at the time of passing of the risk. The data are controlled at regular intervals as part of our quality assurance program.
