

Raw Material Information Form

HYALURONIC ACID – HYDROLYZED HYALURONIC ACID

INCI Name: HYALURONIC ACID
 HYDROLYZED HYALURONIC ACID
 SODIUM HYALURONATE
 HYDROLYZED SODIUM HYALURONATE

Appearance: WHITE POWDER

Suggested Use Level: For Oral HA, recommended daily dosage is about 200mg

Suggested Applications:

In cosmetic products as moisturizer and anti-wrinkle.

The Oral HA can support HA level in the body. It can help people have full energy and youthful vigor. It can help people ease the injury of joints, especially their knees. HA is usually used with Chondroitin sulfate, Collagen and MSM.

Toxicological profile

Information on toxicological effects: The toxicological properties of this material have not been fully investigated.

Acute toxicity: Not available.

Skin corrosion/irritation: No data available

Serious eye damage/eye irritation: No data available

Respiratory or skin sensitization: No data available

Germ cell mutagenicity: No data available

Carcinogenicity: Not listed by ACGIH, IARC, NIOSH, NTP, or OSHA.

Reproductive toxicity: No data available

Specific target organ toxicity - single exposure: No data available

Aspiration hazard: No data available

BSE/TSE Statement

This product does not contain any animal derived raw materials and was not manufactured using animal derived processing aids or additives. As a result, Hyaluronic Acid do not pose concerns for transmissible spongiform encephalopathies including bovine spongiform encephalopathy.

GMO Statement

Hyaluronic Acid is not manufactured using ingredients obtained from genetically modified organisms and is therefore considered GMO-free.

Latex statement

This product does not contain Latex.

Gluten Statement

To the best of our knowledge, this product does not contain gluten.

Phthalates statement

This product does not contain phthalates.

Heavy Metals

Lead (Pb): <5 ppm
Arsenic (As): <1 ppm
Mercury (Hg): <1 ppm
Cadmium (Cd): <1 ppm
Chromium (Cr): <1 ppm

Terpenes statement

This product does not contain terpenes.

Dioxin Statement

To the best of our knowledge, this product does not contain Dioxin.

DEG Statement

This product does not contain Diethyleneglicole.

Cosmetic Allergens Statement (EU Directive 2003/15/EC)

Do not contain any cosmetic related allergens.

Food Allergens statement

Hyaluronic Acid is not manufactured from any of the following ingredients and therefore is not anticipated to contain any of the food related allergens:

- Celery or derivatives
- Crustaceans and bi-valves (e.g. shellfish such as shrimp, lobster, crab & clams)
- Eggs or albumin derivatives
- Fish or derivatives
- Lupin
- Dairy products (e.g. whey, lactose, casein, milk or cream)
- Mustard or derivatives
- Tree nuts or derivatives (including almonds, Brazil nuts, cashews, chestnuts, hazelnuts, pecans, pine nuts, pistachio nuts, macadamia nuts and walnuts.
- Peanuts or derivatives
- Sesame seeds
- Soy or derivatives

Animal Testing

We hereby state that we never made any test on animals by the material of Hyaluronic Acid we supply.

Information Regarding Origin

Source: Glucose, yeast powder, dipotassium phosphate, magnesium sulfate
Country of Raw Material Origin: China
Country of Manufacture: China

GRAS

The product is GRAS (generally recognized as safe).

Formaldehyde statement

This product does not contain Formaldehyde.

CMR Status

Based on our knowledge of the material, we do not anticipate the product containing materials classified as CMR Substances of category 1A, 1B or 2 under Commission Regulation 790/2009, amending Regulation 1272/2008 which are banned from use in cosmetic products as of December 1, 2010 in accordance with Article 15 of the EU Cosmetics Regulation 1223/2009.

SVHC

The product is free from Substances of Very High Concern (SVHC) as defined in Article 57 of Regulation (EC) No 1907/2006 (the "REACH" regulation).

REACH Status

At present the product is exempt due to volume less than 1 ton per year

Date:2018.11.23
