Responsible: Regulatory Office – regulatory.fragrances@lrindustries.it

### SECTION 3. Chemical-Physical properties

Test Type	Standard
Odour	Caratteristico
Appearance	Liquido giallo
Relative density @ 20°C	> 0,8000 (g/ml)
Refractive index @ 20°C	> 1,4000 (nD)
Solubility in Ethanol	Yes
Solubility in water	No
Flash Point @ 20°C	> 61 °C
Melting point	Not determined
Boiling point	> 250,0 °C
Vapour pressure @ 20°C	Not determined
GC Assay (%)	Not determined
Shelf-life (months)	12

Quality Assurance Specifications Valid: **Yes**

### SECTION 4. Other informations

Usage: concentrated product for exclusive industrial use.

Handling: Do not swallow. Avoid contact with eyes and mucous membranes. Storage: Keep the product in tightly closed original container, stored in a cool, dark, dry place, away from light and heat sources. After the indicated period (see shelf-life specifications) the organoleptic characteristics of the product may change. We therefore recommend not to use it, in the absence of preliminary tests necessary to evaluate their suitability for use.

DOCUMENT NOT SIGNED BECAUSE ELECTRONICALLY PREPARED.

Note: the company L.R. FLAVOURS & FRAGRANCES INDUSTRIES S.p.A. assumes no responsibility, nor will it accept any request for damages of any kind, deriving from the irresponsible, illegal or improper use, direct or indirect, of the product presented or sold.
