

SCHEDA TECNICA

PRODOTTO: **ACEMOLL ISL**

CHEMICAL NAME Isooctadecanoic Acid, 2-(1-Carboxyethoxy)-1-Methyl-2-Oxoethyl Ester, Sodium Salt

INCI NAME Sodium Isostearoyl Lactylate
CTFA NAME Sodium Isostearoyl Lactylate
CAS N° 66988-04-3
EINECS/ELINCS N° 266-533-8
FORMULA C₂₄H₄₄NAO₆

Specifica	Lim.inf. - Lim.sup.	u.m.
Descrizione	Liquido Viscoso	
Indice di acidità	60 - 80	mg KOH/g
Colore Gardner	<= 8	
Sodio	4,5 - 6,5	%
Indice di revisione specifica di vendita	N°0	
Data revisione	09/12/2005	

HLB 5.9

STORAGE & HANDLING:

Store under cool, dry conditions. The container should be kept tightly sealed. Avoid exposure to direct sunlight for prolonged periods. After usage, return drums to normal storage as product discoloration could occur. Approximately 24-48 hours prior to use, container should be placed in a "hot room" at 60°/65°C to facilitate ease of handling. Temperatures exceeding this level can cause caramelization and darkening of product.
